In the **Grants** module, under the **Awards** tab, you can search and filter to the award you're needing.

2

Once on the correct award, there is a tab within the award called "**Compliance Review**". It may not be visible so you would need to use the 3 dots to see more menu options.

3

Once you are in the **Compliance Review** tab, you will see the **IACUC/Grant Congruency Reviews**. This will list the protocol number as well as the species.
